

## Little May's Angle

What did little May's mother teacher her to say?

Who took care of May?

What did Scout do when May started to school?

What happened one day at school?

Why did May not walk with the other children?

What did she see?

When she was tired, who did she ask to help her?

How did scout act when he saw it was storming?

What did he finally do?

What did mother do then?

Who had helped May find her way home?
